DEPARTMENT OF THE INTERIOR

Geological Survey

GR23ZD01BNEPJ002; OMB Control Number 1028-NEW

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Angler Participation Study

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review - Open for Public Comments" or by using the search function. Comments can also be sent by mail to the U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov_Please reference OMB Control Number 1028-NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this Information Collection Request (ICR), contact Lucas Bair by email at lbair@usgd.gov, or by telephone at 916-556-7362. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the

United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at http://www.reginfo.gov/public/do/PRAMain.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A *Federal Register* notice with a 60-day public comment period soliciting comments on this collection of information was published on February 4, 2022 (87 FR 6621). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of

information technology, e.g., permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: In 2019 the National Park Service (NPS) completed a plan for nonnative fish management from Glen Canyon Dam to Lees Ferry and on through Grand Canyon National Park. With public and partner input, the NPS identified specific tools for managing non-native brown trout, including an incentivized harvest program that offers a reward to anglers for catching and harvesting brown trout. The Glen Canyon Dam Adaptive Management Program along with its science provider, the U.S. Geological Survey's Grand Canyon Monitoring and Research Center, is interested in understanding the participation of anglers in the brown trout incentivized harvest program. An online survey will be used to collect information concerning 1) trip characteristics, 2) incentive structure and 3) opinions on river management. This collection proposes to provide data that will be used to inform the ongoing incentivized harvest program.

Title of Collection: Angler Participation Study.

OMB Control Number: 1028-NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public: Individuals/households.

Total Estimated Number of Annual Respondents: 800.

Total Estimated Number of Annual Responses: 800.

Estimated Completion Time per Response: 27 minutes.

Total Estimated Number of Annual Burden Hours: 360.

Respondent's Obligation: Voluntary.

Frequency of Collection: One time.

Total Estimated Annual Nonhour Burden Cost: None

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501 et seq.).

Scott Vanderkooi,

Director,

 $USGS\ Southwest\ Biological\ Science\ Center.$
